HANNE MARQUARDT

BILINGUAL *Study Days*

OCTOBER 1-4 2009
KNOWLTON, LAC BROME, QUEBEC

After having met and studied with Eunice Ingham in 1958, Hanne Marquardt set out to validate and research its efficacy with her patients, developing a more detailed, thorough approach, known widely as RTF - Reflexotherapy fo the Feet. RTF is taught in 15 schools in Europe to practitioners with a medical-therapeutic background. Hanne has also uncovered a surprisingly simple “key” to understanding the connection between the person and his/her reflecting areas on the feet.

Hanne's profound wisdom radiates throughout her teaching and inspires all who meet her. In these Study Days, you will gain deeper insight into your work as a Reflexology Therapist.
